### "HE KNOWS THE BOPES."

The day after Grant accepted the second-hand nomination for Mayor it was announced by an unimpeachable authority that his platform was: "He knows the ropes."

Never was a truer, squarer platform Hugh J. Grant does know the ropes, every last one of them, and it was for that reason that he was nominated. If he is elected his business will be to mind the ropes. He must produce a Police Justiceship when he feels the roker cable yank. Two pulls on the Jimmy Martin rope will mean a Police ommissionership for one, quick. One tug at the Gilroy rope will be a signal for the Mayor to hand out a fat job as counsel to some commission for son n-law Mulqueen. Three pulls on the Purroy rope will indicate an immediate necessity for three political snaps at public expense in the Annexed District. A series of jerks at the rope from the Second District will mean that Paddy Divver wants seven places in the Garbage Department.

And so on to the end of the list of bosses and sub-bosses. Each has a rope to pull, and Grant knows them all. And Tammany, confident by faith of his past record, depends upon him to honor every pull.

Citizens who wish to see a Mayor jump every time a ward heeler pulls the string should vote for Grant, who knows the ropes.

If the crooked methods of the Elevated Railroad Company could be ventilated and its fetid atmosphere changed it would be a good thing for the commu-

nity. Mr. Thomas F. Ryan, of the Metropolitan Traction Company, on the other hand, announces that the Company favors rapid transit. He makes the argument that an underground road would aid the work of the cable roads rapidly increasing the growth of the uptown districts, and the cable roads continue to be a necessity just as the surface roads now remain a necessity despite the elevated system.

This is a sensible view of the case. and we believe will be constructed.

The news comes that the Czarina is now ill-broken down by her many sorrows-and that her mind is affected.

She suffers from partial paralysis.

The family has its full share of troubles, and it is not surprising that rumor attributes the illness of so many of its members to the secret administration of some subtle poison, as opportunity offers. Assassination is not rare in Russia when we remember that four out of twelve rulers previous to the present Czar died by the hands of murderers. One-third of the crowned heads of a nation is a good percentage to have been removed by assassination.

Beauty from a Paper Toy.

For a woman who wants to fill out the hollows of her face and neck and wants pink cheeks, a good idea is to buy some of these pretty paper fishes or odd-shaped little bags to be found in the Japanese shops. If a woman will spend five minutes a day puffing at one of these she will find her face filling out and the air which will be driven in and out of her lungs will increase the height of her chest and set the blood in circulation through the face, bringing a faint pinkish tinge to her cheeks. It will not be pink as the kind that is bought in the drug stores, but the woman will be surher looks.
